

ARCTIC ENGINE · TALENT POOL ANALYTICS

Domain-expert talent network for frontier AI

DOMAIN EXPERTS

916,607

10+ yrs experience or PhD

AVG EXPERIENCE

13.7 yrs

12 yrs median

PHD NETWORK

22,826

across 40k+ colleges

LANGUAGES

10

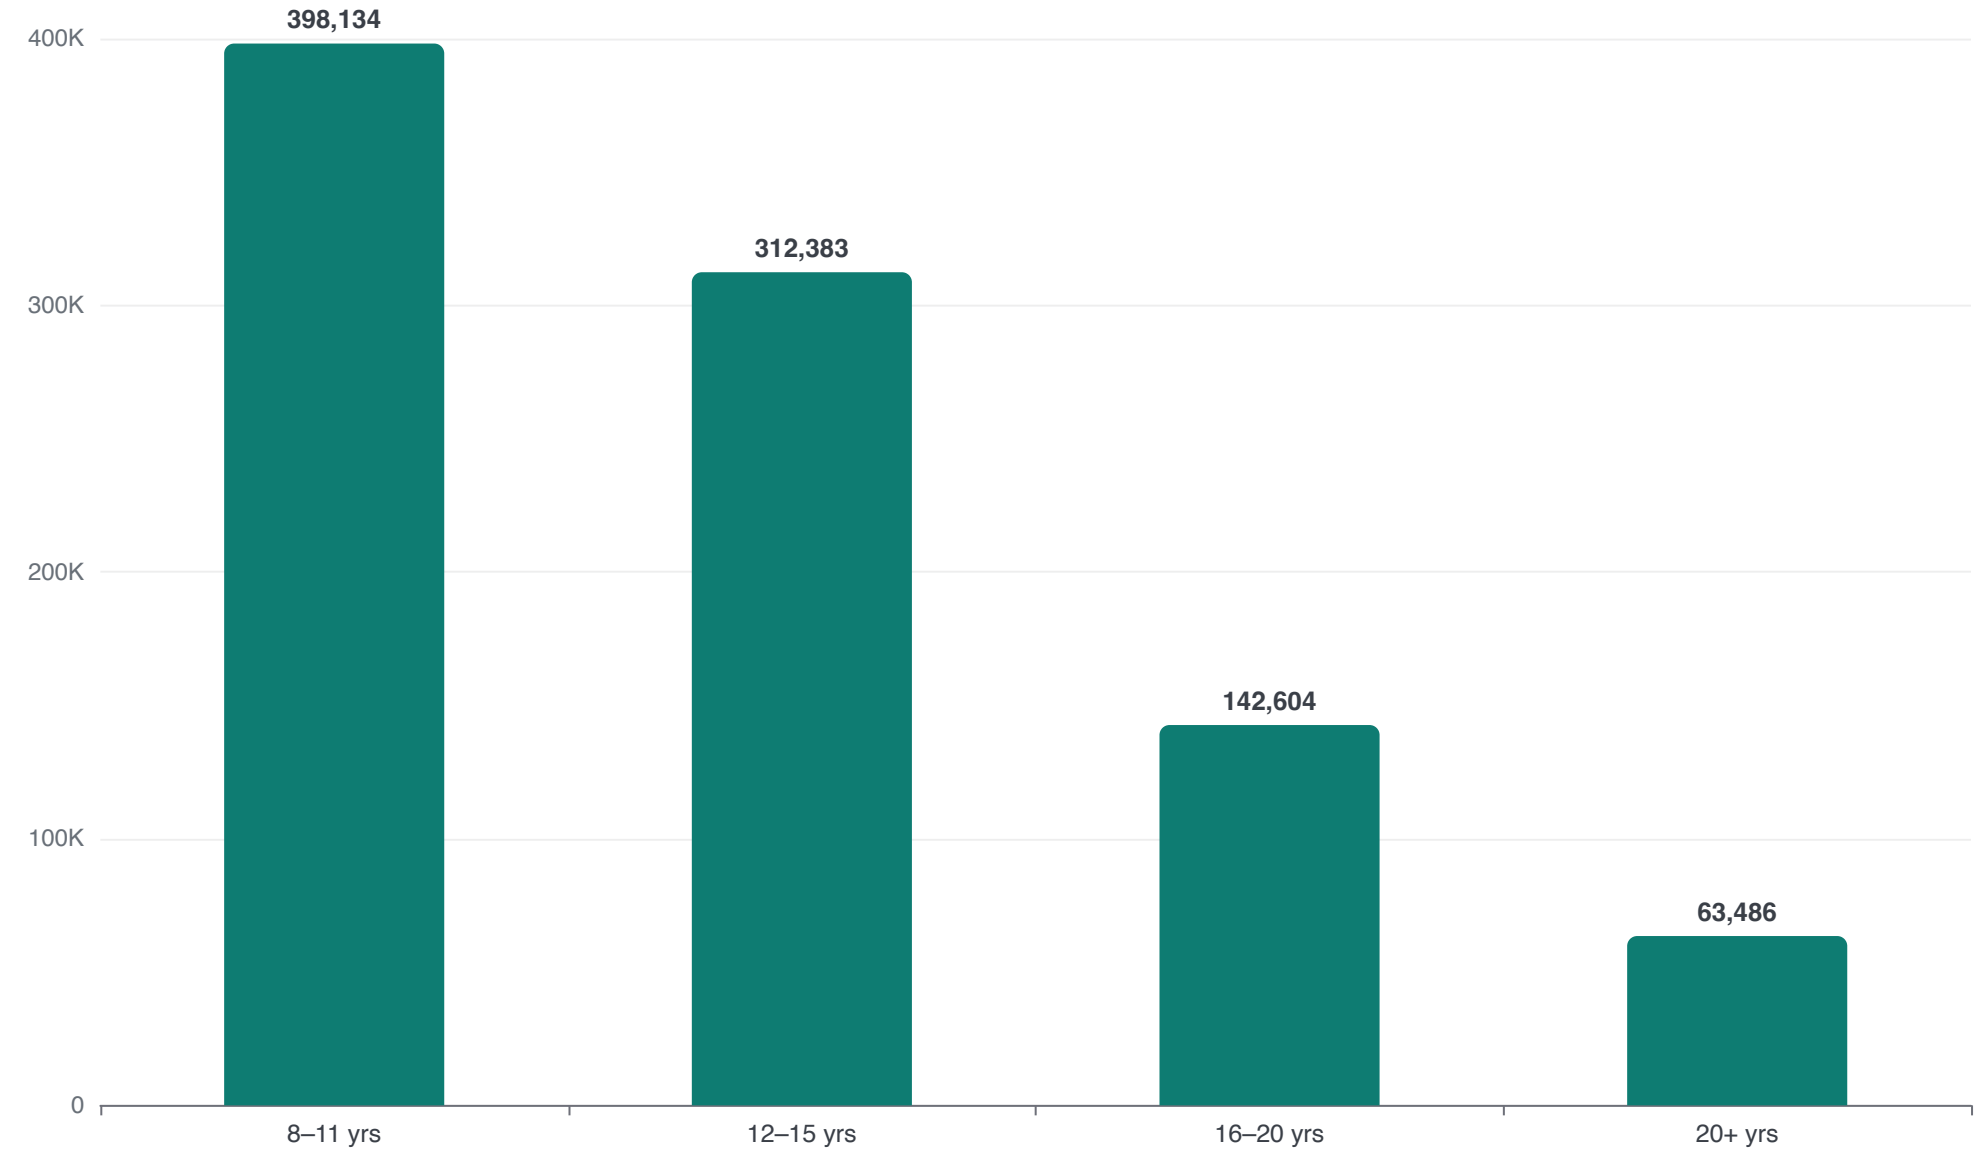

Indian languages covered

Domain Expert = 10+ years of hands-on experience **or** a PhD. A network of **916,607** vetted experts and **22,826** PhDs — active across 40,000+ colleges and 300,000+ companies, and growing every week.

1 · YEARS OF EXPERIENCE

Experience distribution

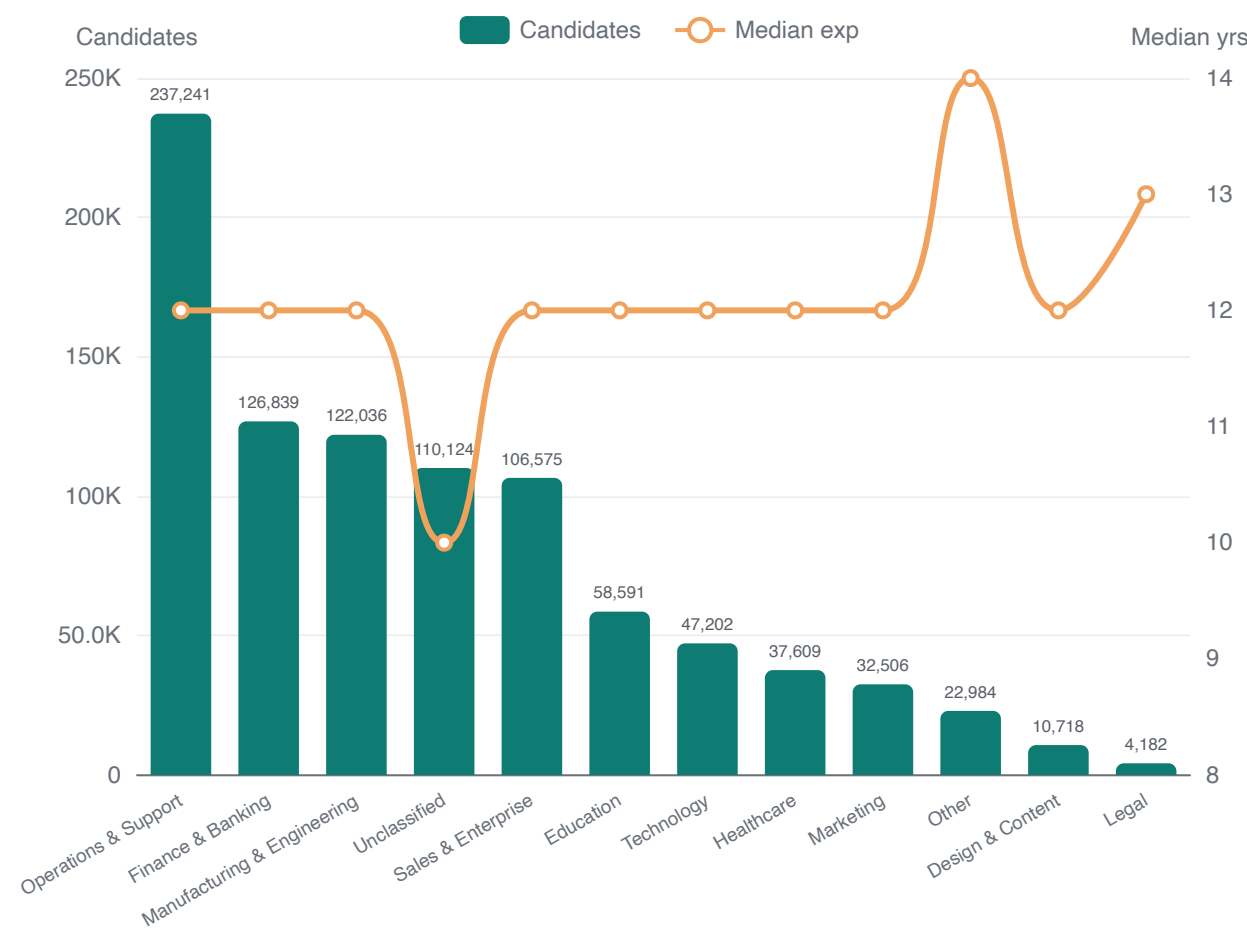

Candidates by years of professional experience. Domain-expert floor is 8+ years.

2 · DOMAIN, DEPARTMENT, LANGUAGE & EDUCATION

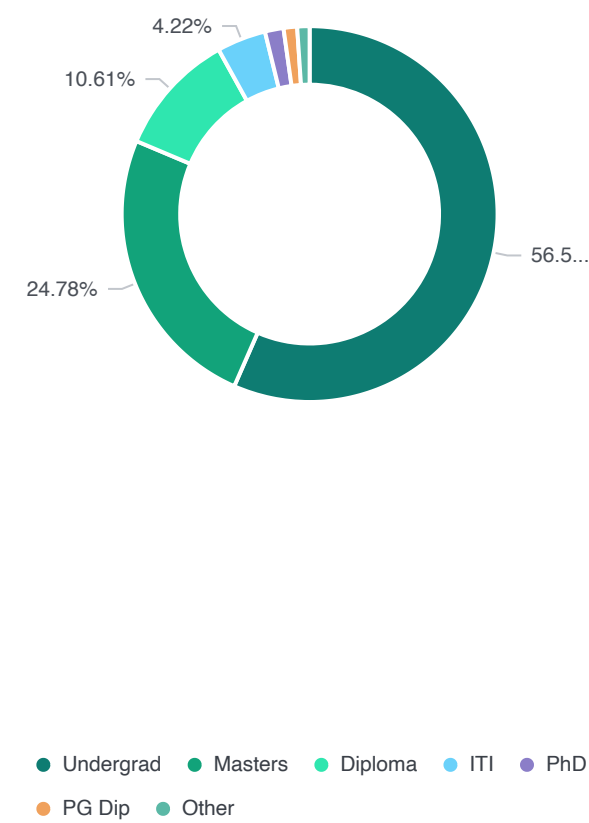

Domain segments — candidates & median experience

Verticals grouped from department; blank departments remapped from job title. Bars = candidates · line = median years of experience.

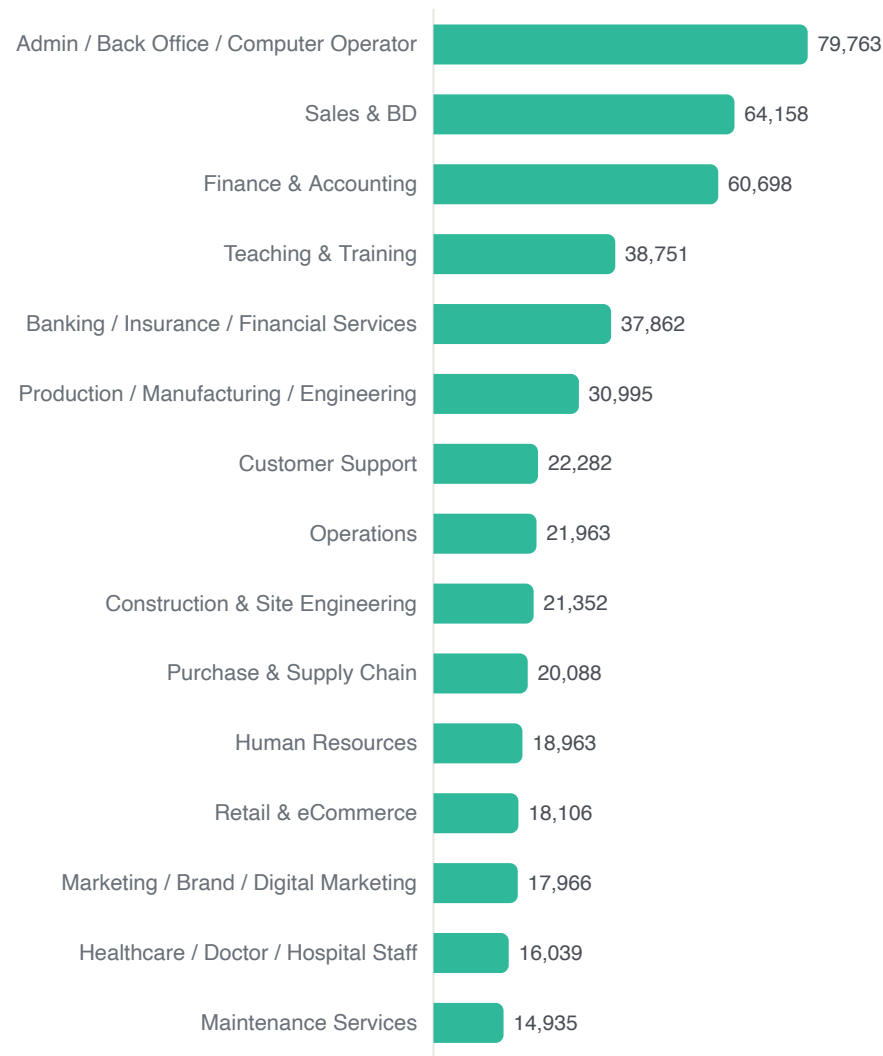

Education — qualification levels

Highest degree per candidate.

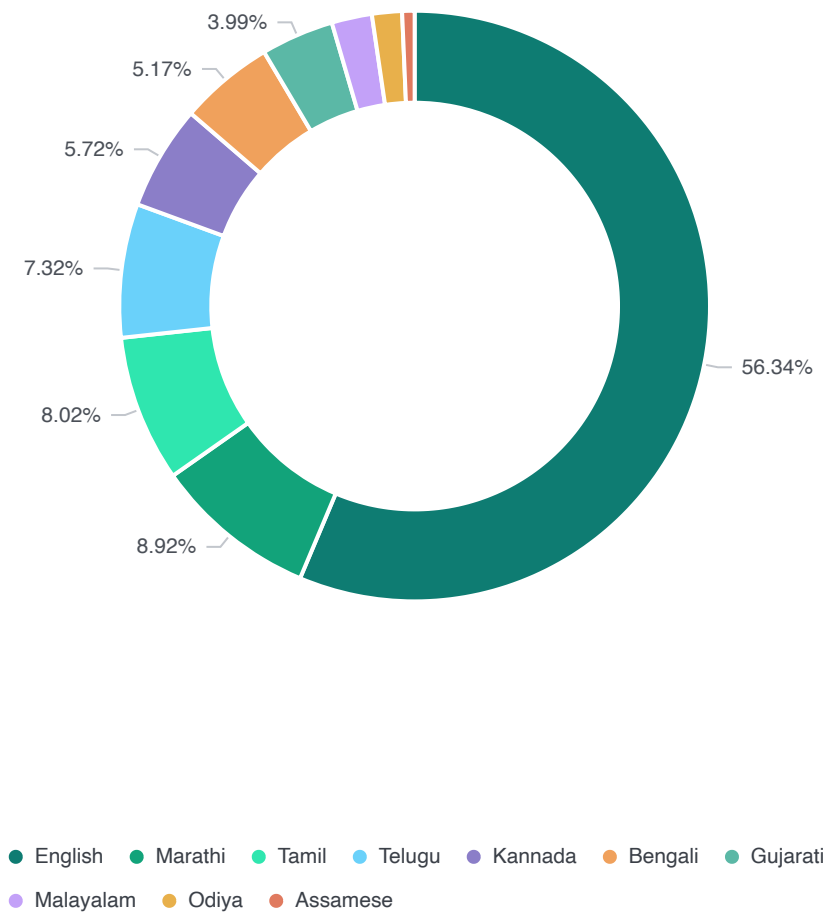

Top departments

Most common departments across the pool.

Multi-lingual pool

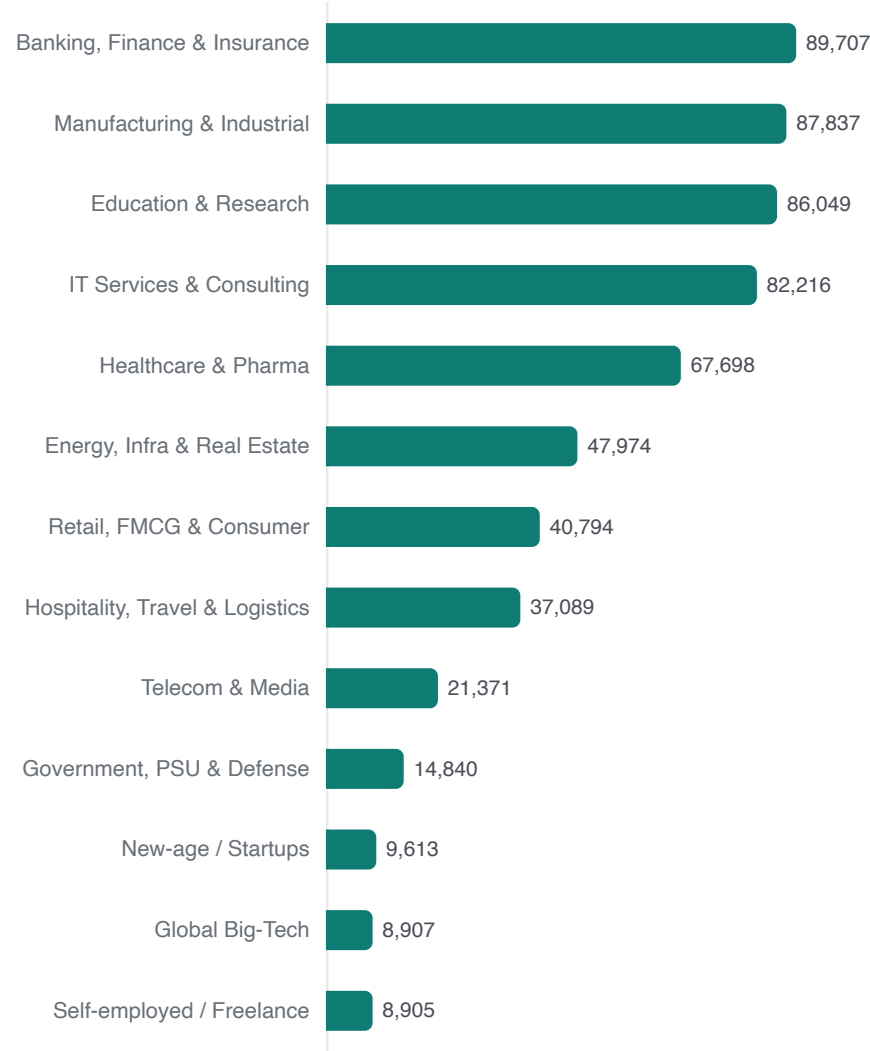

Language mentions across candidates.

EMPLOYER LANDSCAPE

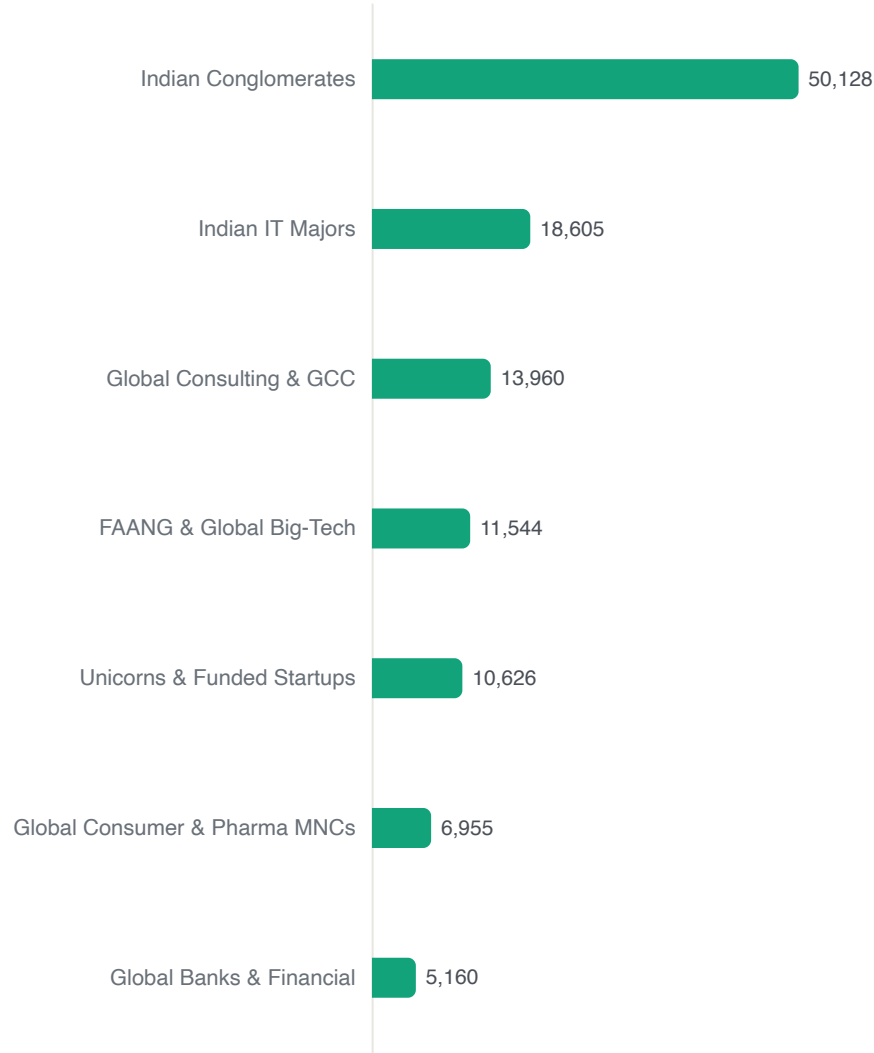

Employer sectors industry

Enterprise employers by industry. Plus **753,767** at regional & SME businesses.

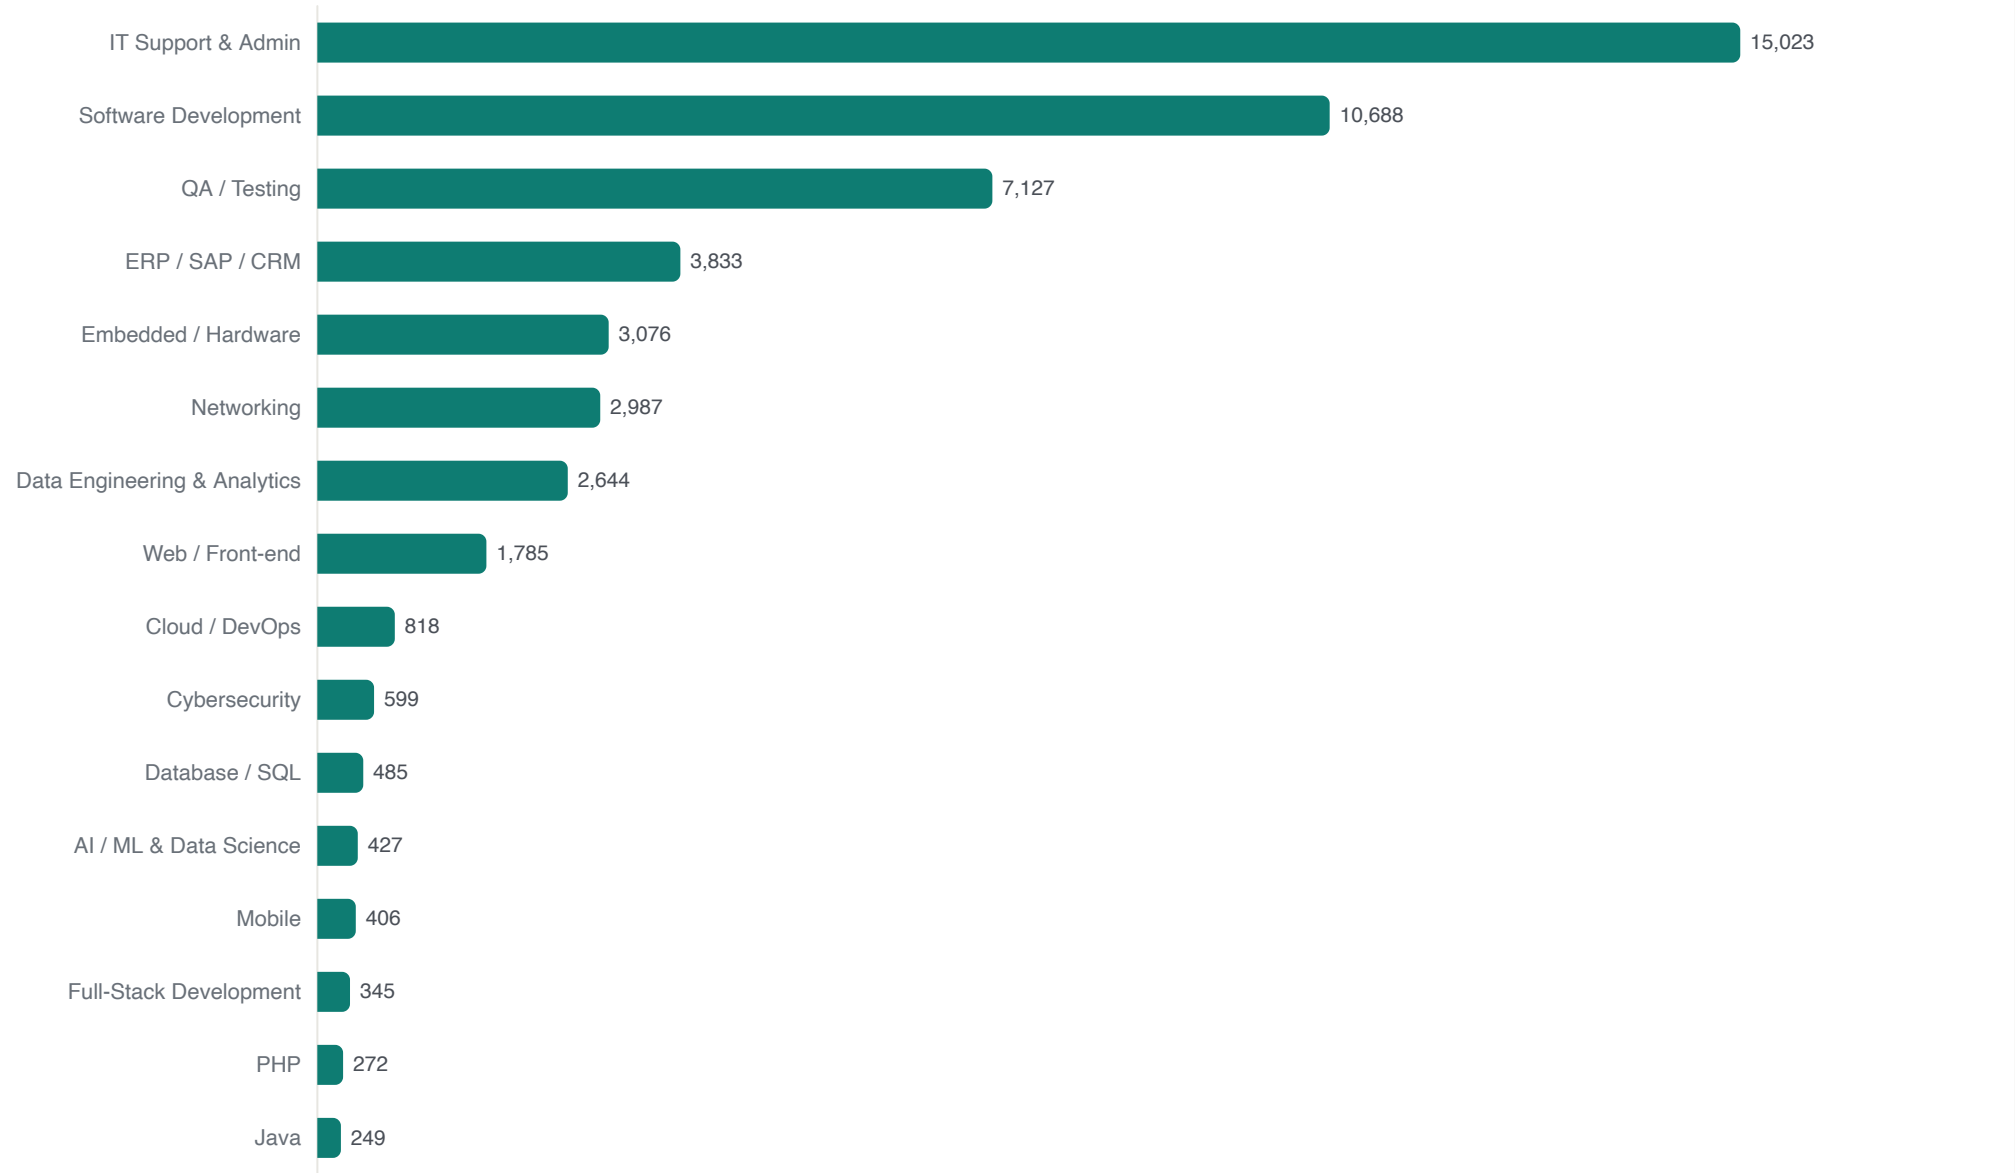

Prestige employer groups sought-after

Experts from FAANG, Indian IT majors, global consulting, unicorns, top banks & conglomerates.

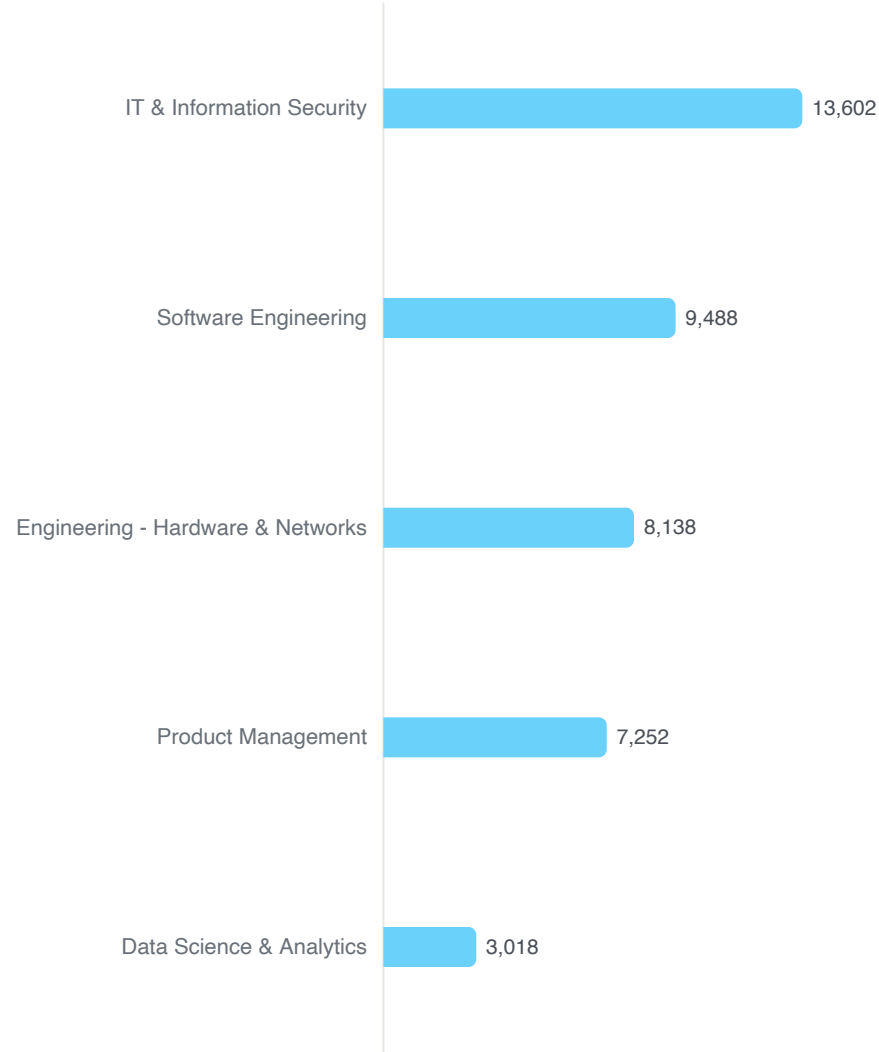

Coding & tech pool by discipline

The **50,997** experts in software & IT roles across the full pool, by discipline. Explicit-language titles (Java/Python/.NET/PHP) counted directly; other technical titles mapped to the closest discipline. Manufacturing machine-programmers (CNC/VMC) are excluded.

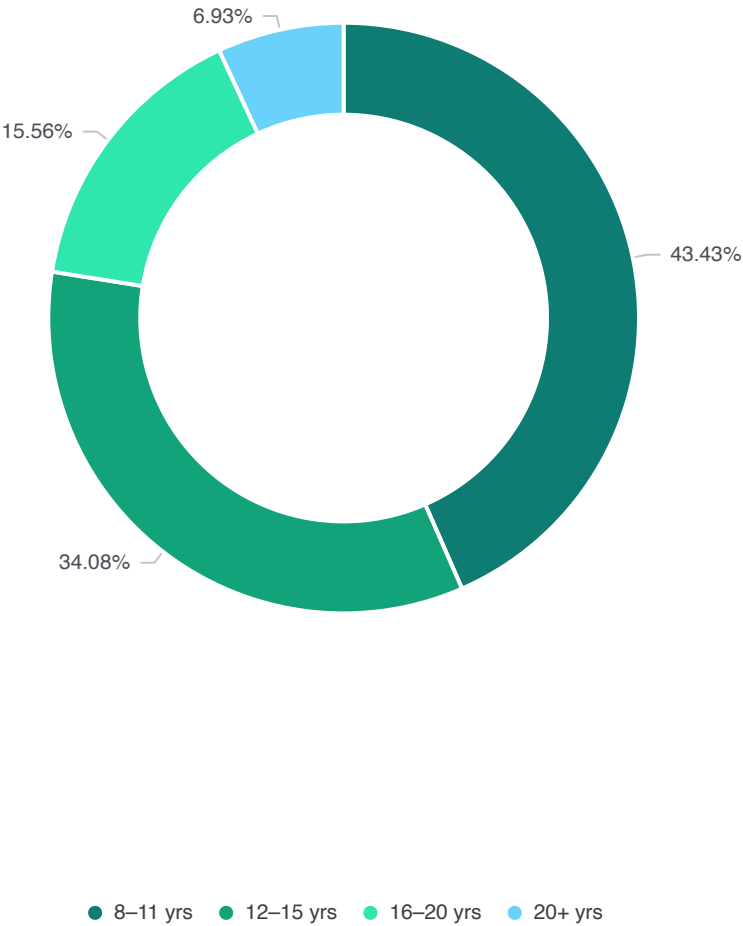

Tech pool by department

Software/IT/Hardware/Data/Product departments.

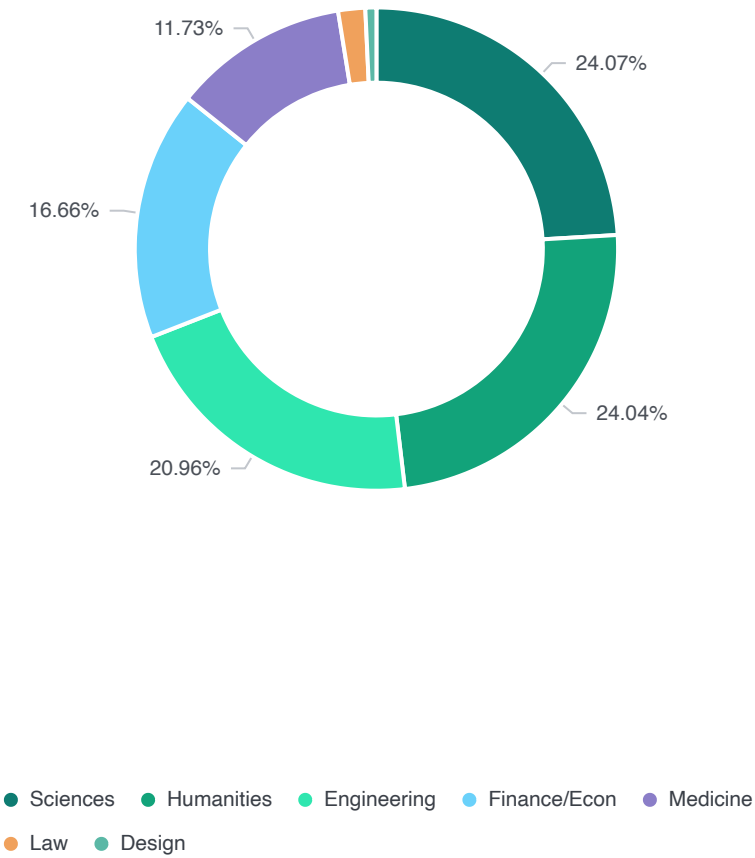

Tech pool by experience band

Filtered tech candidates.

PhDs by domain

Filtered pool · subject inferred from specialization.

PhDs by field

PhDs with an identified field, grouped into families from 170+ raw specializations.
